**Company profile:** AB Effectenbeteiligungen AG is active in the field of equity financing for undervalued, but promising Austrian and international companies that have a potential for making profits. The companies targeted are already listed on an exchange, but are hardly heeded by investors (especially institutional investors) due to thin trading volumes or inadequate investor relations and public relations work. A further focus of AB Effectenbeteiligungen AG is equity financing in advance of public offerings. The past three years have seen a boom in technology and growth start-ups. A going public at a later date opens the way for investors who buy shares prior to the public offering to earn handsome profits.
